Samsung is moving with and ahead of our customers

A brand is created by its customers and that's the novel perspective at Samsung. With all the customer attention, Samsung had another successful year. Business Week and Interbrand ranked Samsung 19th in Global Brands.

Samsung has been on the forefront of digital and design, developing new products and increasing its presence in all its markets. Its sales growth, even in tough economic times, demonstrates its ability to effectively hedge its portfolio of businesses. This year, Samsung saw strong mobile phone sales. In the U.S., it also placed number one for HDTV shipments and French-door refrigerators. But while Samsung continues to carve a reputation for itself and has maintained its price premiums, it would benefit from better brand consistency, as well as a unified brand promise.

As a global leader, Samsung will continue to create future with its customers.

'Eco-friendly' Samsung

Preserves the nature you live in.

Thinking of you and the environment, Samsung plans for the future. Realizing your hopes for a greener, healthier life for you and the generations that follow, Samsung's environmentally friendly technologies work to make the world a more beautiful place.

Air & Water Conservation

As a leading innovator of environment-friendly products and technologies, Samsung products already drastically reduce the strains on nature's valuable resources. Samsung uses R-600, a natural refrigerant, and cyclopentane insulation in its refrigerators, which do not promote global warming and does not add to the greenhouse effect. Samsung's water-efficient washing machines also use less detergent and water without effecting cleanliness, helping to conserve water.

Use Less, Save More

Samsung products are energy efficient, receiving Energy Grade A+ in the EU and ENERGY STAR in the U.S. Samsung washers with its ceramic heaters use less power, which saves you energy, money, and time. This energy-efficient technology protects you and nature, giving you a greener lifestyle.

Global Recycling

Samsung Electronics is making significant efforts to save the environment and complies with the WEEE (Waste Electrical and Electronic Equipment) directive by joining or establishing the recycling schemes for each country.

Samsung Eco-Friendly Air Conditioner

Making continuous efforts to stay eco-friendly, Samsung's air conditioners use R-410a, an environmentally friendly refrigerant to help rid the air of pollutants and restrain the use of materials with high global warming potential (GWP). Samsung air conditioners have taken a leading role in reducing energy consumption and lowered significant amount of energy. These energy-efficient air conditioners not only save you money, but help conserve the environment.

Samsung Air Conditioner

Galeria de Innovacion 2009

Samsung attended Europe's largest air-conditioner exhibition "Climatization" in Madrid, Spain. Samsung air conditioner's beautiful design with innovative features was awarded the "Galeria de Innovacion". The idea behind this award is to encourage innovation in the practical application of know-how and technologies in industrial development. Once again, Samsung proves its unsurpassed standards in quality.

iF Product Design Award 2009

As one of the world's oldest & prestigious design competitions, the iF product design award has stood for qualitatively outstanding design awards for over 50 years. And Samsung's air conditioner with its design innovations has won the iF product design award for the year 2009. Samsung air conditioner continues to receive worldwide recognition and awards, proving high quality of function and beauty.

Comfort & Design 2010

Organized by Fiera Milano International, 37th Mostra Convegno Expocomfort / Expobagno 2010 aimed to reward the best product that shows a high level of environmental quality, providing a complete overview of the sector along the lines of "Comfort & Living Technology". And Samsung air conditioner won the prize conferring a valid and professional recognition for the best product in the ceremony

Received certifications and awards

Save Energy, Save Money

SMART INVERTER

Samsung Smart Inverter technology saves up to 80% in energy while the air conditioner is on, and uses zero standby power when turned off. These great double savings reduce your electricity bill and keep you from pulling out the plug.

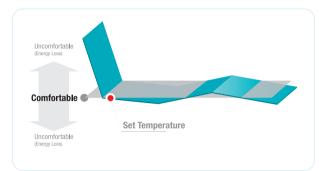

What is Smart Inverter?

Unlike non-inverter air conditioners, Samsung's air conditioner with Smart Inverter technology maintains the ideal temperature without constant shutting off and on of the compressor.

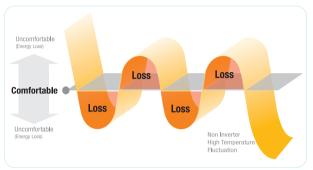

Smart Inverter

Smart Inverter technology automatically adjusts power to cope with any variances, assuring you experience less temperature fluctuation for optimal comfort.

Non-inverter

Non-inverter air conditioners shut off when the set temperature is reached and turns back on when the temperature variance is high, causing large fluctuations in temperature and in comfort.

Save energy, money, and stay stable!

The Smart Inverter allows you to stay comfortable for a long period of time while using the least amount of energy.

Save Energy

Enhanced control of Smart Inverter reduces energy consumption by up to 80%(K series) so you can save more money on your electricity bill.

Stay Comfortable

The set temperature is maintained without extreme temperature fluctuations so you stay consistently comfortable.

Save more with Smart Inverter

Although the unit price of Samsung's Smart Inverter air conditioner is initially higher than a non-inverter air conditioner, it pays for itself in time with the money you save in electricity bills.

World Top Class EER, save up to 80%

By avoiding energy wasting start up and shut down and with increased control technology, Samsung air conditioner helps you significantly reduce energy waste. This smart inverter air conditioner achieves World Top Class EER by saving up to 80% in energy usage. So, enjoy cool comfort with better savings!

Samsung EER/COP 5.2 / 5.2

* K Series 9k Btu

Greatest energy efficiency!

You'll be amazed by the comparison. Samsung's air conditioner receives the World Top Class EER for high energy efficiency.

Samsung

Competitor A

EER/COP 5.0/5.1 EER/COP 5.15/5.25

Zero Standby Power, save up to 90%

All Samsung's air conditioners save you money even when it's off. The improved control board uses miniscule amounts of energy when off, resulting in 90% more savings than conventional air conditioners, which use an incredible 8W.

More saving, bigger pleasure

With the saved energy by using almost zero standby power for a month, you can power these appliances for FREE!

of lamp use

machine use

Smart Saver

You don't have to worry about your electricity bills when using a Samsung air conditioner. You no longer have to turn off your air conditioner when you feel the room is cool enough and turn it on again when the air is not cool enough simply to save electricity.

Save up to 31% on Your Electricity Bill!

In Smart Saver mode, the air conditioner's compressor operates in the least amount of time to cool the room, which saves electricity. With the Smart Saver, you can stop worrying about your electricity bill and start enjoying cool comfort.

itdoor Temperature	
30 degree	

Up to 31% Saving!

24°C -	Regular Mode	2201	-
24 0	Smart Saver	1930	12%

Samsung Test Result

This is when you need Smart Saver!

When you repeatedly turn the air conditioner on and off to save energy.

When you don't want to waste energy cooling an empty room.

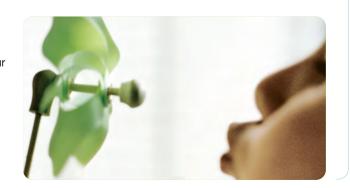

When you debate turning on the air conditioner because its not unbearably hot.

Preserve nature with Samsung!

Samsung's air conditioner presents the new Smart Saver function, never seen before, for efficient cooling with less energy consumption. With this function, users significantly save energy and money. Feel proud that you are doing your part in preserving the environment by using a product that helps save nature's resources.

FULLEDFILTER

Samsung's high density filter blocks out dust and allergy-causing bacteria.

STEP 2.

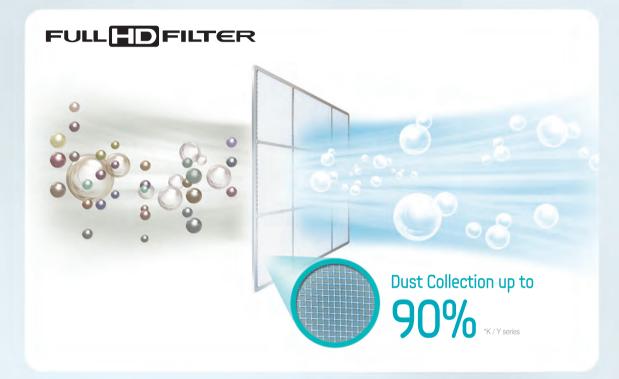

The air purifying device eliminates 99% of contaminants, bacteria and viruses in the air.

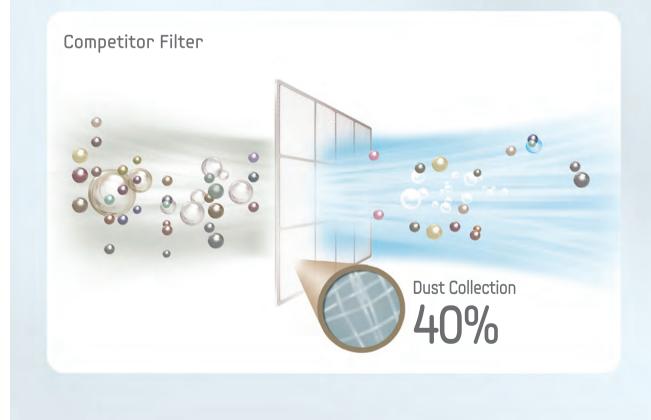

With Samsung's advanced Full High Density Filter, you can ensure your room is kept fresh and clean. The Full HD Filter offers improved filtration by removing even the smallest microscopic dust particles and transforming polluted air into clean energized air.

Improved dust removability!

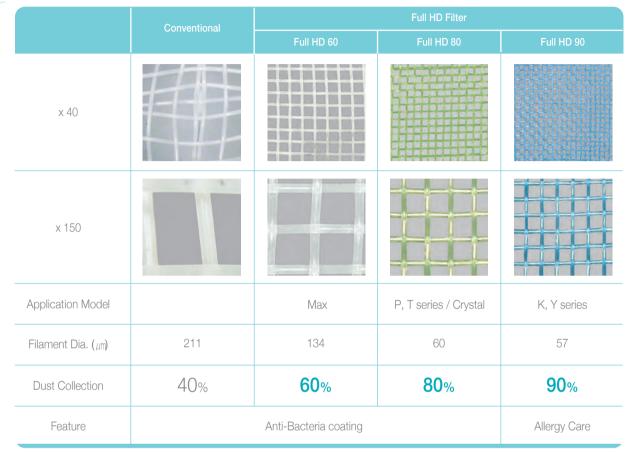

Samsung's Full HD Filter creates cleaner air with outstanding dust collection!

Type of Full HD filter

There are three different types of Full HD Filters. The ultra-compact filters remove even the smallest dust particles. Also the anti-bacteria coating and allergy care system not only remove bacteria and house dust but also eliminate allergens.

Anti-Allergy tested by National Food analysis center of Japan

Easier and care-free filter cleaning

All you need to do is simply wash out the dirt with flowing water to clean the filter. Always keep your air clean and fresh with simple and easy care of the filter.

Anti-bacteria Coating

Due to the anti-bacteria coating's unique structure, this filter can collect even the smallest dust particles and viruses. Enjoy complete protection from unwanted bacteria so you breathe cleaner, fresher air.

Allergy Care

Samsung's new allergy care filter removes not only bacteria and dust particles but also reduces allergy symptoms. The special coating helps protect against allergies and keeps your environment fresh.

Samsung's S-Plasma ion eliminates harmful airborne substances such as bacteria, viruses and fungi. This outstanding air purification device improves indoor air quality to provide a more comfortable and healthier environment.

What is S-Plasma ion?

There are seriously harmful air contaminants in the air we breathe. Samsung S-Plasma ion is an air purifying device which neutralizes the biological contaminants in the air and turns them into water vapors. This outstanding device eliminates all the contaminants left in the air and substances that could not be percolated with physical filtration.

How does S-Plasma ion eliminate biological contaminants?

The S-Plasma ion generates active hydrogen and oxygen ions, which form Hydroperoxy radicals (HOO-). It reacts with virus and turns into harmless water vapor, H₂O. Also the active hydrogen (H) combines with OH-radical and forms a water vapor, neutralizing harmful OH-radical.

What kind of harmful particles does S-Plasma ion eliminate?

Samsung's unique S-Plasma ion technology eliminates biological contaminants such as viruses bacteria, molds and allergens. Protect your family from toxins that cause sickness with outstanding S-Plasma ion technology.

Causes various diseases such asinfluenza, chicken pox, SARS

Bacteria: Causes a variety of diseases and symptoms

spreads harmful viruses

Active oxygen: Speeds up the skin aging process

Ticks: Causes skin irritations and respiratory problems

Dust in the air: Causes asthma, headaches, and bronchitis

Influenza A virus subtype H1N1
Eliminates 99.99% of this virus strain assured by the team that first developed the H1N1 flu vaccine.

19.16m³ Superb coverage

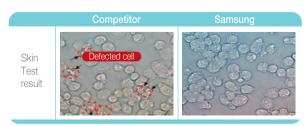

The S-Plasma ion purifies over 19.16m³ of space unlike its competitors. You can always have completely clean, healthy air even in large spaces.

Competitor	Samsung S-Plasma ion
4 m³	19.16 m³

Skin-friendly S-Plasma ion

Unlike competitor ionizers, which produce harmful OH radicals, Samsung's unique S-Plasma ion only emits active hydrogen and oxygen ions into the air, removing toxins and even neutralizing OH radicals. Keep your environment cleaner, healthier, and safer with Samsung's S-Plasma ion.

World wide patents and certifications

S-Plasma ion is a unique and effective technology that is certified from all around the world. Patents have been received from many countries and the certifications obtained from academic research centers prove the superb technology of the S-Plasma ion.

Stay healthy with pure air designed by Samsung

In limited spaces like automobiles, airplanes and elevators, S-Plasma ion shows its outstanding technology by providing the highest level of fresh clean air. Keep your environment free from bacteria, mold and other contaminants with Samsung's innovative S-Plasma ion.

1. Home Environment

S-Plasma ion protects your family from airborne bacteria and viruses.

2. Medical Facilities

With S-Plasma ion, patients are safe from getting sick from contaminated air.

3. Transportation

S-Plasma ion provides comfortable and healthy indoor air while travelling for long periods of time.

4. Public Spaces

S-Plasma ion eliminates the toxins in the air of public places.

3D Wind

With Samsung's Wide Twin Blades, the air flows throughout the room evenly. The wider and longer blades provide advanced airflow in the room allowing you to experience a cooler environment in a shorter time.

120° wide airflow The airflow covers 120° angle for complete comfort.

13m Longer

distance coverage

The air distributes further throughout the room with long-range airflow.

90° airflow to the floor

Two blades individually flows air down to the floor at 90°.

Samsung's Wide-Twin Blade can open up to 90 degrees for a more effective and reaching air flow. The longer twin blade ensures air reaches every corner of the room being cooled and more control in flow. Samsung offers the perfect solution in effective cooling with the Wide-Twin Blade.

120° wider coverage

Unlike conventional models, Samsung's Wide-Twin blade expands air coverage to 120 degrees. This improved distribution of cooling air lets you feel comfortable faster.

90° vertical airflow

Samsung's Wide-Twin Blade individually controls the airflow at optimum angles. The double layered blade provides long range airflow to deliver heating or cooling for larger spaces.

13m Long range cooling

With the long-range air-flow, you can feel cool air instantly no matter how far you are from the air conditioner. The air conditioner can reach 13m so you are always cool and comfortable anywhere in the room.

Samsung's new air conditioner operates in its maximum speed in Turbo Cooling mode to quickly reach the set temperature. Instantly cool down your space with Samsung's Turbo Cooling technology.

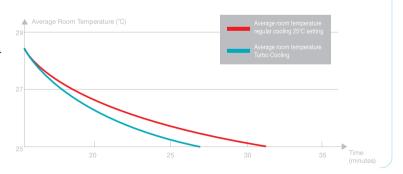

Maximum cooling!

When you enter your home or office after returning from the sweltering heat outside, you want immediate cool relief. When you turn on the air conditioner in Turbo Cooling mode, the compressor fan operates in its maximum speed for 30 minutes to cool down your space quickly.

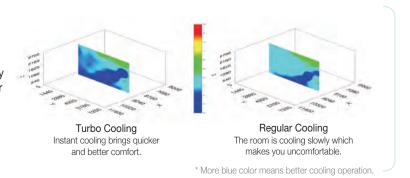

Cool down faster than ever

Compared to normal operation mode, Turbo Cooling mode cools down the space 15% faster. When you need instant cooling, Samsung air conditioner's Turbo Cooling mode is the perfect answer.

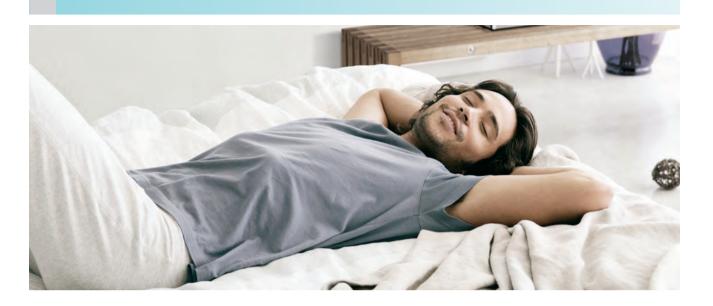

Even cooling

As you can see in the distribution table, Samsung's cool air evenly distributes throughout your room quicker than just regular cooling. Enjoy the comfortable cooling provided by Samsung air conditioner.

good'sleep

Samsung's good'sleep mode ensures that the most comfortable environmental temperature is maintained for your good night's sleep.

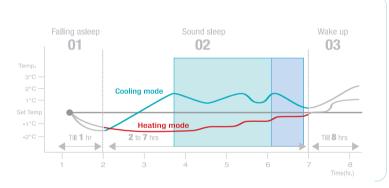

Best temperature for deep sleep

01 Falling asleep stage Eases you into sleep by dropping the temperature.

02 Sound sleep stage Relaxes your body and raises your temperature slightly.

03 Wake up stage

Allows you to wake up from comfortable intermittent air and makes you feel refreshed.

Everything improved!

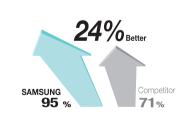

Sleep efficiency

The good'sleep mode increases sleep efficiency compared with competitors.

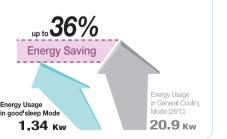

Pleasant skin temperature

The temperature setting of good'sleep maintains pleasant skin temperature, making your body more relaxed and comfortable.

Energy saving

The good'sleep mode reduces up to 36% of electricity consumption compared with a normal cooling mode.

Enjoy a pleasant night's sleep

Concerning your health, good'sleep offers ideal temperatures needed to quickly fall asleep, maintain a comfortable sleep environment, and to awake refreshed. Unlike other product's sleep mode, Samsung good'sleep considers the rhythms of human

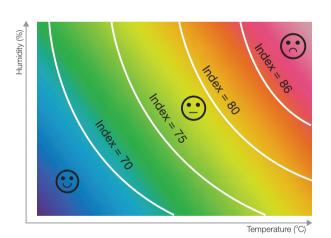

d'light cool

Too much air conditioning is not only hazardous to your health, but harmful to the environment since it wastes energy. Samsung's air conditioner uses the least amount of energy to maintain comfort levels so you and the environment stay

Optimum temperature for best comfort

People can feel comfort or discomfort even at the same temperature due to the varying level of humidity in the air. Samsung's d'light cool system automatically checks the current humidity and temperature and adjusts for the most pleasant environment.

How d'light cool works

- 1. It first measures the humidity and temperature in the room.
- 2. It calculates what temperature and humidity is needed to reach the comfort index.
- 3. It adjusts the temperature and humidity automatically until the comfort index is reached.

No more wasteful cooling

- 1. Accurately measure humidity & temperature to maintain the ideal comfort index.
- 2. No need to reset the temperature with automatic temperature control.
- 3. Customized cooling, which reduces energy

Power Consumption (Operation : 2hrs)

Stabilizer-Free Operation

Samsung's air conditioner with built-in stabilizer lets you have cool fresh air without sacrificing interior style. With the Stabilizer-Free Operation, never worry about power failures while keeping your room looking good.

"Built-in" stabilizer!

The Stabilizer-Free air conditioner improves the look of your home since you don't need to install a separate stabilizer. With Samsung, you don't have to sacrifice style for consistent comfort.

Exceptional comfort with powerful air

Stabilizer-Free Operation gives you fresh, powerful air in any circumstance. With the built-in stabilizer, this air conditioner regulates the voltage keeping it stable to prevent surges in voltage and power outages. So, leave your worries behind and rely on Samsung for healthy and clean air.

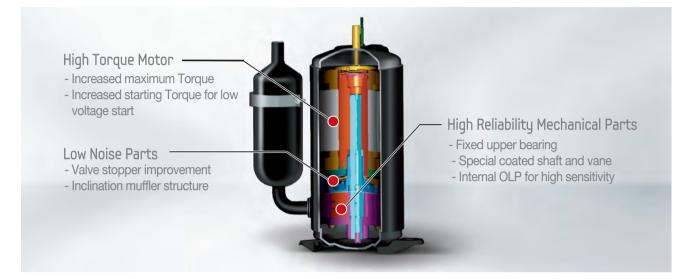

Built-in stabilizer to save money

Samsung's Stabilizer-Free air conditioner automatically stabilizes voltage to prevent power failures, so you don't need to invest in a separate stabilizer. Even with a voltage surge of up to 290V or as little as 135V, the Stabilizer-Free air conditioner provides consistently cool, powerful, fresh air.

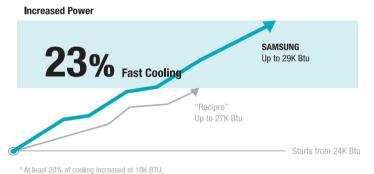

1 UTR Plus[™]

The UTR (Ultra Tropical Rotary) Plus™ provides incredibly powerful performance that quickly brings greater comfort even in severely hot weather. The stable operation of UTR Plus™ delivers reliable performance for a long time without any breakdowns.

Consistent cooling in any kind of weather

The UTR Plus™ with its strong motor can quickly cool the air even in severely hot climates of 54°C. This outstanding compressor can cool down 23% faster than the conventional "Recipro" compressor.

Long-lasting coolness without breakage

Samsung's UTR Plus™ compressor extends its lifespan by enhancing its welding method with new durable material. You can enjoy the powerful performance of your air conditioner for a longer period of time.

Certified by Maryland CEEE (Max 9% higher EER than Reciprocating comp)

Saudi Arabia)

Anti Corrosion fin

When corrosion starts, it shortens the life of the heat exchanger by reducing durability and allowing bacteria to grow. Samsung's heat exchanger fin is designed to resist corrosion so you have cool, comfortable air for a long long time.

Outstanding anti corrosion protection

The Anti-corrosion Fin Condenser is designed with strong corrosion-resistant material to protect itself from rusting. This smart fin strongly protects the condenser from corrosion to give you cool clean air without worries of wear. Stay comfortable all the time with Samsung's long-lasting air conditioner.

Samsung's Anti Corrosion fin

conventional

Higher reliability from wear

Samsung's anti-corrosion fin proves outstanding wear resistance compared to competitor's corrosion-resistant material. The anti-corrosion Fin Condenser with its unique corrosion-resistant material protects the heat exchanger against rust so you can have clean cooling and enjoy fresh air for a long time of period.

Triple Protector

Samsung's integrated protection technology offers better durability and reliability. Its powerful cooling system (Engine Protector), constant volt control (Controller Protector), and effective anti-corrosion coating (Fin Protector) allow you to have perfectly fresh cooling air for a longer period of time.

tector prevents compressor from being overloaded by heat in severely hot weather or unstable electricity circumstances. So, you have a cool, comfortable room quickly and you can forget that it's a hot summer day.

troller adjusts to avoid breakdowns from unstable power supplies. This special technology withstands power fluctuations from 80V to 400V so you always have unbeatable coolness regardless of circumstance.

conditioner gets rusty and breaks down. Whereas this problem could be overlooked, Samsung made sure to protect even its interior with anti-corrosion fin to ensure consistent, long lasting performance.

MCC (Multi Channel Condenser)

Samsung's innovative MCC heat exchanger has an enlarged heat exchange surface which increases the cooling efficiency. The MCC's new flat surface design delivers quick cooling, so you can always have cool fresh air anytime you want.

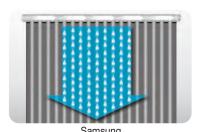

Remarkable innovation in heat exchanger!

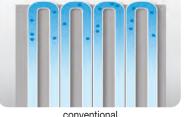

Samsung's Multi Channel Condenser increases the heat exchange surface with multi channel flow. Moreover, with its new flat surface design, it reduces the air resistance compared to conventional heat exchangers. The large flat surface and multiple channels enhance its cooling efficiency. Thanks to MMC's smaller size, it's widely used in cars, which require higher efficiency even in limited spaces.

Instant heat exchange for faster cooling!

Compared to conventional heat exchangers, Samsung MCC's faster performance results in faster heat exchange, so your space is cooled instantly. With fast cooling of your space, stay cool and comfortable all the time.

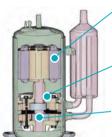

For greater comfort, Samsung made improvements to reduce vibration and noise level coming from the air conditioner. With Samsung's highly innovative air conditioner, you can always have quiet, peaceful life while staying comfortably cool.

Immensely low vibration with TBLDC

Samsung air conditioner applied the twin BLDC compressor with stable moving parts. This highly efficient motor provides extremely low vibration which reduces variation by 40% compared to the conventional single BLDC compressor.

BLDC (Twin Rotary) Compressor

Highly Efficient BLDC Motor

- Creative motor core design
- High density neodymium magnet Concentrated type stator

Extremely Low Vibration

- Twin eccentric cams

- 2 balance weights

- Highly Stable Moving Parts
- Optimal material matching rollers and vanes
- Highly robust bearings - Coated vane - Coated shaft
- *K,Y Series(All model), P Series(18K~24K Btu model)

More stable fan spinning

New pan hub's depth is increased from 45 mm to 62mm and diameter is widened by 32%. The reinforced fan hub makes the spinning more stable, reducing the vibration noise when the air conditioner is in operation.

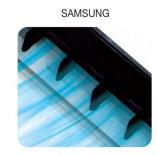

Stronger body pillar

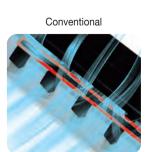

The body pillar inside the outdoor unit supports the outer case. Once the air conditioner is turned on, the outdoor unit's case makes a high level of noise due to the vibration and loose-jointed parts. Samsung strengthened the body pillar to hold out the case more tightly to inhibit vibration and add durability.

Seamless airflow

The air conditioner's air path has been widened and streamlined to reduce air friction surface. This reduced a frictional whizzing sound without compromising Samsung air conditioner's powerful blasting wind.

Special Remote Control

It's an ergonomic and innovative remote control with better design, easy grip, soft touch buttons, easy-view display, and more. All these convenience and simple design are in the palm of your hand.

Ergonomically design for better control

Simple minimal design is easy to use and the size is comfortable to grip.

01 Easy View Display Bigger, clearer numbers and icons allow for better visibility.

03 Power Button Orange colored power button makes it easy to see.

02 Bigger Buttons Larger buttons for easier use.

(Auto Changeover

The Auto Changeover automatically selects the operating mode (Cooling or Heating) according to the temperature setting. Thus, when a temperature is selected to the auto mode, the air conditioner heats and cools as required to maintain the set temperature.

Split Type

Extreme Saving with Style

You can recreate your space with utmost modern beauty even with extreme energy saving. Samsung's new air conditioner is designed with dark purple color gradation and specially created unique pattern to deliver the luxuriousness. Also the smart technologies support the air conditioner to reduce energy consumption to save your money. Make your space beautiful in low energy usage.

New Beauty Emerges from Samsung

Samsung guarantees to support your stylish life with peerless beauty of the new air conditioner. Samsung's new air conditioner is delicately designed with high-gloss panel in purple black color. The dark gradation of color delivers enchanting beauty.

Ideal Air for Perfect Coolness

Max

Enjoy exceptional cooling power with Samsung air conditioner. Samsung air conditioner quickly cools the room with strong refreshing air. Also its unique technologies prevent waste of unnecessary energy consumption and control the temperature automatically so you can sleep comfortably throughout

Max

Features

Smart Inverter (option)

Highly efficient Smart Inverter technology maintains precise temperature even with 50% less energy consump-

Smart Saver

In Smart Saver mode, the compressor of the air conditioner operates in the least amount of time to cool the room, which saves electricity.

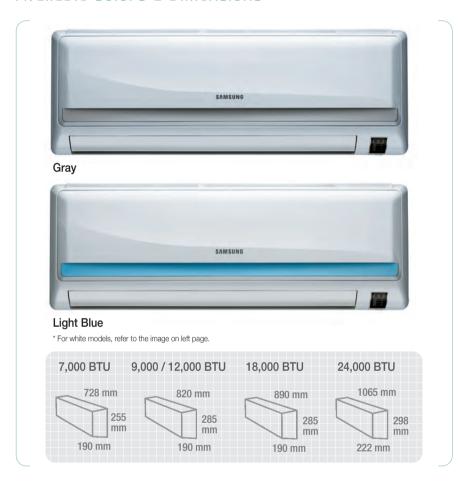

Turbo Cooling

Turbo Cooling maximizes the speed of cooling and heating to quickly reach the set temperature.

Additional Feature

- · Zero Standby Power
- good'sleepUTR Plus(Option)
- Anti Bacteria Coating
- Auto Clean
- Dehumidification
- Quiet Mode
- Auto Restart
- Real Time Timer
- Full HD Filter • 24-hour Timer
- Auto Changeover
- Remote Controller

Technical Information						
SVC Valve	Liquid	OD	ø6.35mm	ø6.35mm	ø6.35mm	ø6.35mm
	Gas	OD	ø9.52mm	ø9.52mm	ø9.52mm	ø9.52mm
Piping Length	Max	m	15	15	15	15
Piping Height	Max	m	8	8	8	8
Features						
Air Purification	S-Plasma ion		•	•		
	Auto Roof Shutter					
	Full HD Filter		90	90	80	80
	DNA Filter					
	Deodorizing Filter					
	Catechin Filter					
	Allergy Care			•		
	Anti-bacteria Coating				•	•
	Auto Clean		•	•	•	•
Air Flow	Wide Twin Blade		•	•		
	Optimal Single Blade				•	•
	Fan speed(Steps)		4	4	4	4
	Air Direction (Up/Down)		Auto	Auto	Auto	Auto
			Auto	Auto	Manual	Manual
	Air Direction (Left/Right)		Auto	Auto	Manuai •	Manual
	Natural Breeze				•	•
Operating Mode	d'light Cool		•	•		
	good'sleep		•	•	•	•
	Smart Saver		•	•	•	•
	Turbo		•	•	•	•
	Dehumidification		•	•	•	•
	Auto Mode		•	•	•	•
	Fan Mode		•	•	•	•
	Quiet		•	•	•	•
Convenience	Filter Cleaning Indication					
	Indoor Temp. Display		•	•		
	Remote Controller		•	•	•	•
	Display On/Off		•	•		
	Beep On/Off		•	•		
	Real-time Timer		•	•		
	24-Hour Timer				•	•
			•	•	•	•
	Auto Rectart		-			
	Auto Restart			<u>*</u>		
Outdoor Hoit	Auto Changeover		• Twin BLDC	• Twin RLDC	• RIDC	• PLDC
